Advanced Implantology Solutions

Superior Implant Technology

AB Dental is a global innovator of advanced implantology solutions. We develop, manufacture, and market everything a dental clinician needs – from dental implants, prosthetic products, and surgical tools to CAD/CAM solutions, laser-sintered custom implants, surgical guides, and more.

As industry leaders, we adhere to the highest standards, hold all major regulatory certifications, and deliver unmatched professional service – in addition to providing advanced education and training, and continuously pioneering cutting-edge products and technologies.

Wherever dental professionals gather from around the globe to explore new frontiers in implantology, you'll find us – with AB Dental's ubiquitous "drop" icon and a whole lot of exciting news to share!

Our spirit of innovation and excellence captivates everyone as we travel the world with the AB Drop.
